ACTIVE INGREDIENTS

COLLAGEN (*Soluble Collagen*): Promotes dermal restructuring, restoring the skin's elasticity and firmness.

ORGANIC SILICON (*Methylsilanol Mannuronate*): Due to its regenerating action, it supports the skin's mechanical properties, including elasticity and firmness. Its lipolytic action induces the release of excess fatty acids accumulated in the adipocytes.

HORSETAIL EXTRACT (*Equisetum Arvense Extract*): Due to its diuretic property and potassium and flavonoid content, it contributes significantly in removing accumulated fluids and toxins, enhancing the reducing effect.

CALENDULA EXTRACT (*Calendula Officinalis Flower Extract*): Its rich polysaccharide and flavonoid content gives it regenerating properties, which boost the metabolism of glycoproteins and collagen fibres.
