

GLACIAR
INTENSE AND PROLONGED
HYDRATION LINE
AGAINST DAILY IMBALANCES

Dehydration contributes to the appearance of wrinkles, as a lack of skin moisture results in dryness, making it one of the main causes of ageing skin.

Facial care line that, on the one hand, prevents transepidermal water loss and, on the other, stimulates and restores the skin's self-hydration mechanisms, thus keeping the skin's natural hydrolipid film in optimal balance. The skin feels fresh, soft, supple and comfortable.

**GLACIAR HAND HYDRATION
HAND CREAM. NON-GREASY FEEL**

Ref: 10190

DESCRIPTION

Hydro-nourishing daily care hand cream. Hydrates and nourishes, restoring the most damaged and punished hands. Easy-absorbed non-greasy texture.

ACTIONS

- Hydrating.
- Repairing.

ACTIVE INGREDIENTS

LIPOSOMAL GLACIER WATER: Highly pure, refreshing water. Liposomal encapsulation increases skin penetration.

SOYA LECITHIN (*Lecithin*): Strengthens cellular cohesion, providing flexibility. Its regenerating function, which is visible in the outermost layers of the epidermis, keeps the hydrolipid film structured so that it can correctly carry out its barrier function.
