

**PERFORMME**  
BODY LINE  
WITH AN INTENSE ACTION  
ON TARGETED AREAS

The most innovative body treatments by summecosmetics that act by targeting very specific problem areas (breasts, buttocks, abdomen, etc.) They are the result of blending the most effective next-generation technological active ingredients with a masterful phytocosmetic synergy of essential oils and plant extracts.

GUARANTEED RESULTS.  
PROVEN EFFICACY.

“A more svelte silhouette without localised cellulite and smoother skin.”

**PERFORMME BODY DESIGNER**  
**BODY SLIMMING CREAM**

Ref: 10324

DESCRIPTION

Body cream with powerful slimming active ingredients that contribute to decreasing accumulated lipids in the adipose tissue, reducing the body volume of very localised areas (belly, abdomen, waist, thighs and hips) with a cosmetic effect. Its high concentration of active ingredients helps to activate the metabolism, smoothing the appearance of the skin and aiding fluid retention.

ACTIONS

- Lipolytic.
- Regenerating.
- Firming.
- Removes interstitial fluid retention.
- Promotes good circulation.

ACTIVE INGREDIENTS

**CAFFEINE (Caffeine):** Generally speeds up the metabolism, enhances lipid reduction in the adipocytes, as well as connective tissue regeneration.

**CARNITINE (Carnitine):** Speeds up the fat-burning process, turning fatty acids into energy, thus helping to reduce localised fatty deposits.

**FUCUS EXTRACT (Fucus Vesiculosus Extract):** Mobilises retained fluids in localised areas, boosting the circulation and removing toxins. Also improves skin elasticity by stimulating the fibroblasts.

**IVY EXTRACT (Hedera Helix Extract):** Activates the circulation, an important property for encouraging adipocyte release.

**ORGANIC SILICON (Methylsilanol Mannuronate):** Due to its regenerating action, it supports the skin's mechanical properties, including elasticity and firmness. Its lipolytic action induces the release of excess fatty acids accumulated in the adipocytes.

COMPOSITION

AQUA, PROPYLENE GLYCOL, SODIUM HYDROXIDE, PROPANEDIOL, CAPRYLIC/CAPRIC TRIGLYCERIDE, METHYLSILANOL MANNURONATE, TRICAPRYLYL CITRATE, FUCUS VESICULOSUS EXTRACT, RUSCUS ACULEATUS ROOT EXTRACT, EQUISETUM ARVENSE EXTRACT, HEDERA HELIX EXTRACT, GLYCOL STEARATE, CAFFEINE, ACRYLATES/C10-30 ALKYL ACRYLATE CROSSPOLYMER, PHENOXYETHANOL, MENTHOL, CURCUMA ZEDOARIA ROOT OIL, ZINGIBER OFFICINALE ROOT OIL, CINNAMOMUM ZEYLANICUM BARK OIL, SODIUM BENZOATE, CARNITINE, MENTHA PIPERITA OIL, IMIDAZOLIDINYL UREA, CAMPHOR, EDTA, ETHYLHEXYLGLYCERIN, Fisetin, RASPBERRY KETONE, PLANKTON EXTRACT, TOCOPHEROL, CI 14720.

DIRECTIONS FOR USE

**CIRCULAR KNEADING**, involves a series of pretty deep compression movements using the knuckles to stimulate the mobilisation of fatty tissues (as if “squeezing” the contents). Use on the belly, abdomen, waist, buttocks, thighs and hips.

“HOME CARE ROUTINE” FREQUENCY OF USE

Daily use. Morning and Night.

**IN VIVO EFFICACY STUDY: LIPOUT™**

Slimming and anti-cellulite active ingredient that stimulates the burning (thermogenesis) of accumulated fat in the adipose tissue, removing centimetres from the silhouette and reducing skin roughness. Following a user test carried out over 56 days involving twice-daily application in 20 women and 10 men with 3% active ingredient, the values reflect a visible slimming efficacy on the waist circumference by

- 2,9 cm. on average in women
- 2,6 cm. on average in men
