

**DE-POLLUTION**  
RANGE OF DEFENSE  
AND REPAIR AGAINST  
ENVIRONMENTAL POLLUTION

Range with a bilateral action: firstly, defends the skin from external aggressions to keep the balance of the microbiota in a perfect functional condition and prevent oxidative stress; and secondly, repairs the damage caused by environmental pollution, removing toxic residues accumulated inside the dermis, and restores hydration levels and cellular nutrition to prolong the health and longevity of the skin.

*“Active carbon particles which detoxify and remineralise skin.”*

**DE-POLLUTION BLACK RUBBER MASK**  
**DETOXIFYING PEEL-OFF MASK with ACTIVATED CHARCOAL**

Ref: 10470

DESCRIPTION

Powerful detoxifying and remineralising anti-pollution face mask. Formulated with activated charcoal particles, which help remove toxins accumulated on the skin surface for a total purifying action. Produces an osmotic effect on the skin for optimal active ingredient absorption during the protocol. Remineralises the skin's support structure to restore its firmness.

ACTIONS

- Tightening
- Decongestant
- Osmotic

ACTIVE INGREDIENTS

**DIATOMACEUS EARTH:** Formed by the fossilisation of algae and phytoorganisms. Encourages skin detoxification due to its trace element content. It's also a powerful antioxidant, rich in Vitamin C.

**ACTIVE CARBON (Calcium Carbonate):** Effectively combats skin pollution. Removes dirt, absorbs the skin's excess oil and balances sebum production. Minimises the size of pores by trapping the dirt which obstructs them, improving the skin's general appearance. Provides luminosity, balances the skin's tone and texture, giving the face a healthier look.

**ALGINATES (Algin Acid):** Based on marine algae rich in protein, mineral salts and trace elements which create a very powerful firming effect. In contact with water they create a very refreshing gel texture, and upon solidifying they produce an osmotic effect which causes skin occlusion, encouraging the absorption of the main active ingredients previously applied.

COMPOSITION

DIATOMACEUS EARTH, ALGIN ACID, CALCIUM SULFATE, CALCIUM CARBONATE, ZINC OXIDE, CHARCOAL POWDER, TETRASODIUM PHYROPHOSPHATE.

DIRECTIONS FOR USE

Pour the single 25g dose into a recipient with 25ml mineral water and mix until a homogeneous and lump-free mixture is obtained. Apply to the entire face and neck with the help of the spatula. Leave on for 12-20 minutes. Remove in one piece.

8 x 25gr. / 8 x 0.88oz.
