

DE-POLLUTION
RANGE OF DEFENSE
AND REPAIR AGAINST
ENVIRONMENTAL POLLUTION

Range with a bilateral action: firstly, defends the skin from external aggressions to keep the balance of the microbiota in a perfect functional condition and prevent oxidative stress; and secondly, repairs the damage caused by environmental pollution, removing toxic residues accumulated inside the dermis, and restores hydration levels and cellular nutrition to prolong the health and longevity of the skin.

“Protective shield against invisible external aggressors.”

100 ml / 3.38 fl.oz.

DE-POLLUTION TOTAL DETOX SERUM
CELL DESTRESSING CONCENTRATE

Ref: 10471

DESCRIPTION

Anti-pollution face serum with a high concentration of protective and repairing prebiotic active ingredients. Formulated with chelating agents, which attract harmful air pollution particles, preventing them from entering the cells and damaging the matrix. Neutralises oxidative stress, strengthens the natural immune system of the microbiome and protects cell biomarkers of youth. Acts as a “superfood”, providing a maximum nutritional boost to cells to repair and regenerate their tissue functions.

ACTIONS

- Antioxidant
- Anti-pollution
- Photoprotective
- Moisturising

ACTIVE INGREDIENTS

MILK THISTLE EXTRACT (*Silybum Marianum Extract*): Powerful antioxidant and anti-pollution action. Contains Silymarin, an active ingredient with anti-radical properties which neutralises the incidence of ROS and inhibits the release of prostaglandins. Increases the endogenous levels of Glutathione, boosting the chelating action on heavy metals originating from pollution.

CHLORELLA ALGA EXTRACT (*Chlorella Vulgaris Extract*): Superfood. Contains more than 20 vitamins and minerals which make it especially valuable for deep skin nourishment. Also rich in proteins and contains all the essential amino acids. It has a very important stimulating effect on the immune system.

GREEN TEA EXTRACT (*Camellia Sinensis Leaf Extract*): Rich in polyphenols. Prevents skin oxidation. Inhibits the enzyme lipoxygenase, in charge of the appearance of the inflammatory processes. Also inhibits collagenase activity, responsible for the breakdown of the extracellular components.

FUCUS ALGA EXTRACT (*Fucus Vesiculosus Extract*): Superfood. Contains proteins, polysaccharides, minerals and vitamins. Deeply nourishes skin, increasing its elasticity and improving its texture. Recovers from oxidative stress. Stimulates microcirculation.

DAISY EXTRACT (*Bellis Perennis Flower Extract*): Rich in saponins, polyphenols and polysaccharides which show depigmentation properties, unifying the skin tone.

NIACINAMIDE: Vitamin B3 reduces the reddened and congested appearance of the skin, deeply fortifying it. Visibly improves the appearance of dilated pores.

COMPOSITION

AQUA, PROPYLENE GLYCOL, GLYCERIN, SILYBUM MARIANUM EXTRACT, CAMELLIA SINENSIS LEAF EXTRACT, NIACINAMIDE, BELLIS PERENNIS FLOWER EXTRACT, POTASSIUM SORBATE, SODIUM PHOSPHATE, FUCUS VESICULOSUS EXTRACT, PHENOXYETHANOL, PROPANEDIOL, CHLORELLA VULGARIS EXTRACT, SODIUM HYALURONATE, LACTIC ACID, PEG-40 HYDROGENATED CASTOR OIL, TRIETHANOLAMINE, PARFUM, CARBOMER, DISODIUM EDTA, ETHYLHEXYLGLYCERIN.

DIRECTIONS FOR USE

Apply the product to the palm of your hand and gently massage the face, neck and décolletage. It can be penetrated by electroporation in blue phototherapy mode.
