ACTIVE INGREDIENTS

COLLAGEN (Soluble Collagen): Main element of the skin structure (support fibres). Helps to restore collagen to the dermis, providing amino acids to the fibroblasts, which are able to metabolise, improving elasticity and the cutaneous microrelief.

CENTELLA ASIATICA LEAF EXTRACT (Centella Asiatica Leaf Extract): As well as its widely-known collagen-boosting property, it stimulates the microcirculation, helping to heal the dermis and even the tone.

BIFIDA FERMENT LYSATE (Bifida Ferment Lysate): Probiotic active ingredient that acts by stimulating the DNA's endogenous repair system, increasing the optimal function of the skin cells.
