ACTIVE INGREDIENTS

SWEET ORANGE EXTRACT (*Citrus Aurantium Dulcis Callus Culture Extract*): Rich in Vitamin C and A. It provides a strong antioxidant effect, fighting the effects of free radicals. Its beta-carotene concentration adds to the antioxidant effect, preventing premature ageing.

STABILISED VITAMIN C (*Sodium Ascorbyl Phosphate*): Stimulates collagen synthesis, improving the skin tone. Affect the synthesis of melanin, evening out and improving the skin colour.

ARGAN OIL (*Argania Spinosa Kernel Oil*): Its high oleic and linoleic acid content improves the skin's natural functions, preventing ageing, dryness and sensitivity of the skin.

JOJOBA OIL (*Simmondsia Chinensis Seed Oil*): It works in perfect tandem with Vitamin C because it adds to its antioxidant effect, emphasising its regenerative and photoprotective properties which are very important for skin that shows signs of pigmentation.

ORGANIC SILICON (*Methylsilanol Mannuronate*): It forms part of the skin's natural connective tissue structure. It acts as a cement, ensuring that all the elements, such as the glycosaminoglycans (GAGs) or proteoglycans, stay bonded to the extracellular matrix. It maintains the skin's mechanical properties, elasticity and firmness, preserving metabolic efficiency.
