

GLACIAR
INTENSE AND PROLONGED
HYDRATION LINE
AGAINST DAILY IMBALANCES

Dehydration contributes to the appearance of wrinkles, as a lack of skin moisture results in dryness, making it one of the main causes of ageing skin.

Facial care line that, on the one hand, prevents transepidermal water loss and, on the other, stimulates and restores the skin's self-hydration mechanisms, thus keeping the skin's natural hydrolipid film in optimal balance. The skin feels fresh, soft, supple and comfortable.

*"Refined,
smooth and
permeable
skin."*

250 ml / 8.5 fl.oz.

**GLACIAR SHELL PEELING
EXFOLIATING CREAM WITH APRICOT KERNEL**

Ref: 10109

DESCRIPTION

Creamy-textured mechanical facial scrub with exfoliating particles. Helps to detach dead cells accumulated on the skin surface, enhancing the cleansing effect and the permeability of the outermost skin layers, boosting the absorption of any subsequently applied treatment products. Does not irritate the skin. Suitable for all skin types.

ACTIONS

- Exfoliating.
- Preparing.

ACTIVE INGREDIENTS

LIPOSOMAL GLACIER WATER: Highly pure, refreshing water. Liposomal encapsulation increases skin penetration.

MICRONISED APRICOT KERNEL (*Prunus Armeniaca Seed Powder*): Exfoliating particles combined with gentle rubbing help to detach dead cells accumulated on the outermost skin layers, promoting a more thorough cleansing.

SOYA LECITHIN (*Lecithin*): Strengthens cellular cohesion, providing flexibility. Its regenerating function, which is visible in the outermost layers of the epidermis, keeps the hydrolipid film structured so that it can correctly carry out its barrier function.

COMPOSITION

AQUA, PARAFFINUM LIQUIDUM, PERLITE, ALUMINUM SILICATE, CETEARYL ALCOHOL, CETEARETH-25, GLYCERIN, PRUNUS ARMENIACA SEED POWDER, LECITHIN, CETYL ALCOHOL, XANTHAN GUM, ALCOHOL DENAT, SODIUM HYDROXIDE, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, PARFUM, BENZYL SALICYLATE, HYDROXYCITRONELLAL, HEXYL CINNAMAL, CITRONELLOL, LIMONENE, LINALOOL.

DIRECTIONS FOR USE

Apply 5ml of product (hazelnut-sized) to the face, neck and décolletage. Work evenly with rubbing movements, encouraging the removal of the corneal layer. Rinse with plenty of water to completely remove the particles. Dry and tone.

TIP: On sensitive skin, you may mix it with one or two pumps of GLACIAR CLEANNING MILK in order to dilute the concentration of granules and create a gentler emulsion.
