

**GLACIAR**  
INTENSE AND PROLONGED  
HYDRATION LINE  
AGAINST DAILY IMBALANCES

Dehydration contributes to the appearance of wrinkles, as a lack of skin moisture results in dryness, making it one of the main causes of ageing skin.

Facial care line that, on the one hand, prevents transepidermal water loss and, on the other, stimulates and restores the skin's self-hydration mechanisms, thus keeping the skin's natural hydrolipid film in optimal balance. The skin feels fresh, soft, supple and comfortable.

*"Soothed, hydrated and restored skin."*
