

ONLY FOR EYES
INTEGRAL TREATMENT
FOR THE EYE CONTOUR

Specifically created to treat each and every one of sign of ageing associated with this special and delicate area.

Its intensive targeted action effectively and sensitively prevents and treats expression wrinkles, eye bags, dark circles, dark spots, fatigue and weariness, dehydration and malnutrition in the periocular area.

“A fresh, regenerated and smooth eye contour skin.”

AROUND 30 ml / 1.0 fl.oz.
UP 7 ml / 0.23 fl.oz.
DOWN 7 ml / 0.23 fl.oz.

PLAY TOTAL EYE TREATMENT
EYE CONTOUR GLOBAL TREATMENT

Ref: 14019

DESCRIPTION

Eye contour treatment composed of 3 steps, globally preventing, repairing and combating the signs of aging and fatigue in the periocular area. It stimulates the natural production of collagen and elastin, thus improving skin texture, smoothing wrinkles and fine lines and softening dark spots. It reduces the volume of eye bags. It also reinforces the hydrolipidic barrier, maintaining hydration levels and helping to protect against environmental damage. Daily use.

Comprises 3 steps:
DOWN_DRENOLIGHT EYES / UP_FIRMING EYES / AROUND_GLOBAL CONTOUR EYES

ACTIONS

- Redensifying
- Draining
- Firming

ACTIVE INGREDIENTS

DOWN_DRENOLIGHT EYES

EYESERYL®: A tetrapeptide with decongestive properties, which demonstrates proven efficacy by reducing the size of eye bags, with a draining effect.
AXOLIGHT®: An active ingredient rich in Arabinoxylooligosaccharide, which inhibits melanogenesis, blocking the action of the Tyrosinase enzyme.
CALMING COMPLEX (HAMAMELIS AND CALENDULA) (*Hamamelis Virginiana Leaf Extract and Calendula Officinalis Flower Extract*): Decongestive extracts, which reduce swelling in eye bags and dark circles.

UP_FIRMING EYES

ARGIRELOX™: Biotechnical peptide which modulates muscle contractions, preventing the appearance of wrinkles. “Botox Effect”.
LIFTONIN®-XPRESS: Combined technological active ingredient. PULLULAN (*Pullulan*): Polysaccharide produced by the *Aureobasidium* fungus, with powerful anti-wrinkle, firming and tightening properties. It creates a film effect, which provides softness and tightness to skin.
RED ALGA EXTRACT (*Porphyridium Cruentum Extract*): Rich in polysaccharides, which retain a larger amount of water in the skin, stimulate cell turnover, reversing the ageing process, and produce a natural protection factor against UV rays.
ARNICA EXTRACT (*Arnica Montana Flower Extract*): Plant extract which is rich in flavonoids. It activates circulation, boosting decongestion and reducing puffiness of the eye contour.

AROUND_GLOBAL CONTOUR EYES

VITAMIN A (RETINOL) (*Retinyl Palmitate*): It activates cellular regeneration by promoting the shedding of the outermost cells, thereby giving an illuminating effect.
BIO-MARINE COLLAGEN 6®: Marene-Based Soluble Collagen. A protein which provides the necessary amino acids to fibroblasts, which increase skin density, improving the micro-cutaneous relief.
MATRIXYL 3000®: A peptide complex which activates the skin’s repair process by rejuvenating the extracellular matrix, restoring fibres damaged by UV radiation, increasing the production of new collagen.
EYESERYL®: A tetrapeptide with decongestive properties, which demonstrates proven efficacy by reducing the size of eye bags, with a draining effect.
ALOE VERA (*Aloe Barbadensis Leaf Juice*): Stimulates cellular regeneration, as well as the fibres responsible for the skin’s elasticity, with a moisturising and softening action.
