1st PHASE: SKIN PREPARATION

1 CLEANSING / REMOVING MAKEUP FROM EYES AND LIPS

Cleanses, moisturises, nourishes the most sensitive areas.

Apply 0.5ml (2 pumps) of **ONLY FOR EYES DELETE _EYE MAKEUP REMOVER** to the treatment area, simultaneously massaging the eye contour area with fingertips, using circular movements (including the mobile eyelid).

Using 2 dampened cotton wool pads, use circular movements to perfectly complete makeup removal. Remove with water and dry.

TIP: Use **GLACIAR TWO PHASES** to remove coloured waterproof makeup. Use **ONLY FOR EYES DELETE _EYE MAKEUP REMOVER** to remove makeup when eyelash extensions are worn.

GLACIAR TWO PHASES (200ml)
ONLY FOR EYES DELETE _EYE MAKEUP REMOVER (10ml)

2 CLEANSING / REMOVING MAKEUP FROM THE FACE

Cleanses, moisturises and nourishes the outermost layers of the skin.

Put 3 or 4 pumps of **GLACIAR CLEANNING MILK**, in a bowl, add 2 pumps of **GLACIAR SOFT LOTION** and mix until an even texture is achieved.

Using two brushes, apply the emulsion to the entire face, neck and décolleté, massaging until all traces of makeup or surface residue are removed.

Remove with water and dry.

It will leave a protective film, especially on the most sensitive skins, boosting the hydration that they may lack.

NOTE: Another option is using Beclarity Clarifying Cleanser or Balance Cleaning Mousse or Cell C Cleaning Mousse without mixing with the tonic.

3 TONING THE FACE

Restores, moisturises and nourishes the outermost layers of the skin.

Apply **GLACIAR SOFT LOTION** or **BALANCE BALANCING LOTION** to the entire face, neck and décolleté with tapping movements, cotton wool or spray, leaving the skin to absorb it naturally.

TIP: Boost the process by gently kneading the cervical nodes.
