ANTI AGE OIL SYNERGY Collagen, Vitamin E Quick Lift[®], Guarana Ginseng

Format 30 ml

Cod. 1030020036

Special anti age synergy for mature skins. The phytotherapeutic active ingredients, highly concentrated, protect the cell membranes from free radicals aggressions. They stimulate the collagen and elastin production, activate the microcirculation improving the tissues' oxygenation.

VITAMIN E: Tocopherol, antioxidant, anti-radical, protects the lipid of cell membranes attacked by pollution, UV rays, smoke, natural skin aging, thus maintaining the collagen unchanged, backbone of the dermis. The skin so remains toned and elastic preventing the appearance of wrinkles. Its distinctly protective action gives a role of primary importance in the prevention of skin aging.

GUARANA': The fruits of Paullinia Cupana, Amazon plant, also called "fruits of youth", contain polyphenolics with stimulating and antioxidant activity. In particular tannins play anti-aging action on body cells, whereas the caffeine stimulates the circulation improving tissue oxygenation and the collagen and elastin production. Scientific studies have shown that guarana extracts stop

the oxidation of body fat, thus counteracting the harmful activity of free radicals, with significant benefits for skin health.

QUICKLIFT[®]: Natural sugar polymer with an instant and lasting skin tightening effect. Firms, smoothes the skin and provides an illuminating effect.

COLLAGEN: Essential molecule for the health of connective tissue, provides the skin an important hydration improving firmness and elasticity.

GINSENG: Phytoestrogens, contained in the extract of Gingseng, stimulate the production of fibroblasts and increase the production of collagen. The result is an immediate anti-wrinkle, firming and reshaping effect. The skin tissue is tonic, elastic and rejuvenated.

DIRECTIONS FOR USE:

Can be used pure, in small quantities, gently massaging the face, neck and décolleté or mixed with other products of the same Skin System's professional cosmetic line to enhance the effectiveness.
