Face cream with unifying and antioxidant action, gives a compact and radiant complexion. The innovative Actiwhite™ ingredient performs a lightening effect by counteracting imperfections such as spots due to sun or acne and other skin discolorations. Vitamin C and Moringa extract protect against skin photoaging and the harmful effects of free radicals and air pollution. Hyaluronic acid deeply hydrates giving firmness to the tissues, smoothing expression lines.

ACTIWHITE™

Patented active of the latest generation, it has a visible lightening and illuminating effect thanks to its ability to decrease melanogenesis, the process responsible for the creation of melanin through an activity of tyrosinase in melanocytes and an inhibition of the maturation of melanosomes. It improves the skin complexion by minimizing the appearance of dark spots and reducing hyperpigmented areas.

VITAMIN C

Performs an antioxidant action and at the same time stimulates the production of collagen, preserving elasticity and delaying the skin aging process; illuminates and makes the complexion more uniform; with a lightening effect.

VITAMIN E

Performs an important antioxidant action capable of blocking the harmful effect that free radicals exert on cells. It protects the collagen structure and preserves skin elasticity, thus counteracting premature aging due to oxidative stress from the sunrays, pollution and smoke.

MORINGA OLEIFERA

Moringa oleifera seed oil is a concentrate of vitality and nourishment for the skin. Rich in proteins, vitamins, mineral salts, beta-carotene and flavonoids with antioxidant effects, it inhibits the activity of free radicals, helps to purify from imperfections and oxidative damage, to moisturize and nourish the skin in depth. Protective effect: rich in polyphenols and phytosterols, plays an important antioxidant action, protects the skin from air pollution, smoke and other pollutants as well as from the harmful effect of UV rays. Purifying effect: plays an important antibacterial and antimicrobial action, particularly inhibiting the growth of acne bacteria, counteracting skin imperfections. Moisturizing and emollient effect: rich in proteins, amino acids, sterols, oligosaccharides and polysaccharides, it plays both an important direct moisturizing activity, being composed of hydrophilic molecules that retain water, both indirect, creating a film on the skin surface that avoids water loss.

HYALURONIC ACID

It is one of the main components of the connective tissue, it confers resistance and firmness to the skin. It penetrates deeply, recalls and retains a large number of water molecules up to 70 times its molecular weight, ensuring hydration, turgidity and plasticity, essential for the maintenance of young skin.

DIRECTIONS FOR USE:

Apply morning and evening to cleansed and dry skin. To enhance the lightening / anti-spot effect, use the Radiance Perfect Skin Serum before applying the cream.
