Cod. 1030020041 / 1030020049

Extraordinary face cream H24 with a strong hydrating and anti-aging action. The innovative cosmetic adjuvant Syn-Ake, relaxes and stretches the facial muscles counteracting the depth of wrinkles in few applications. The synergy of vitamins A and E restores the cell membranes of collagen and elastin, providing a significant increase in tissue hydration and giving dermis tone and elasticity. Recommended in dry and sensitive skin treatment.

VITAMIN E

The Tocopherol, important antioxidant, counteracts the harmful effect of free radicals. In this special formulation, it is easily conveyable in the tissues, thus quickly providing the supply of nutrients necessary to the protection of cell membranes fat, slowing down the physiological aging.

VITAMIN A

The Retinol is essential to the maintenance and development of dermis connective structure. It stimulates cells regeneration and the synthesis of collagen, playing an important action of preservation of skin turgidity and, in the meantime, an important repairing action towards dehydrated and cracked tissues.

SYN-AKE

Dermo-cosmetic active ingredient of technological origin, derived from the whey of viper. It reduces the muscles contractions, responsible for facial expressions, smoothing and preventing expression lines and giving the face a more compact and defined outline.

DIRECTIONS FOR USE:

Spread a small quantity of product on the face, neck and décolleté with a gentle massage until completely absorbed. Apply morning and evening.
