RESTRUCTURING FACE MASK Collagen, Hyaluronic Acid

All skins

Format 10 ml

Cod. 1030020086

Instant effect beauty mask. It contains high concentrations of Collagen and Hyaluronic Acid which, in synergy with each other, perform a complete restructuring action. It leaves a compact and radiant skin.

STRUCTURE
BOOSTER
EFFECT

COLLAGEN: Protein molecule fundamental for the health of the connective tissue. In its hydrolysed formula, it provides "bricks" for the synthesis of new collagen and reorganizes the extracellular matrix of the dermis. In synergy with Hyaluronic Acid, it exerts an important moisturizing and supporting action on the skin, improving its tone and elasticity, thus slowing down the normal process of skin aging.

HYALURONIC ACID: Main component of connective tissue, It gives strength and firmness to the skin. It stimulates the production of new

collagen and elastin, supporting structures of the dermis. Placing itself in the connective space of the amorphous matrix, in the form of an aggregate reticulum able to absorb a large number of water molecules, it guarantees the degree of hydration, turgidity, plasticity and viscosity, essential for the maintenance of a young skin. As an shock-effect molecule, it acts as a compacting element, remedying the signs of aging and preventing cells' damage directly from inside tissues. The skin is so compact and turgid, the expression lines are attenuated and the face contours redefined.

DIRECTIONS FOR USE: Make a deep facial cleansing, then apply the TNT mask making it stick well in all its parts. Hold for 10 minutes. Then remove the fabric and gently massage any residues. Single-use product.
