ALGO BOTANIC MASK  
SOOTHING  
Soothing Alginate Mask  
Cannabis Sativa Oil,  
Gluconolactone

All skins

Formato 500 g

Cod. 1030021101

Soothing Peel-Off Mask based on alginates from primordial seas, Hemp oil and Gluconolactone, regenerates and protects the skin by restoring its normal hydro-lipid barrier.

It improves the hydration and structure of the dermis, stimulates the production of collagen and elastin, ensuring elasticity and the progressive well-being to the skin. It reactivates microcirculation and stimulates cell turnover, giving brightness and compactness. For an hydrated, healthy-looking skin. Ideal for all skin types, especially dry and reddened skin that needs relief.

## CANNABIS SATIVA SEED OIL

soothing, emollient, antioxidant, it regenerates the skin by restoring the normal hydro-lipid barrier. Oil particularly rich in vitamins E, A, B1 and B2 has an important antioxidant action, preventing and slowing down skin aging. The high content of essential fatty acids such as Omega 3, Omega 6 and gamma linoleic acid, responsible for maintaining the right hydration and the correct hydrolipidic balance, guarantees protection, elasticity and well-being to the skin, preventing flaking, dehydration and dryness, guaranteeing a progressive beneficial effect. Minerals such as iron, calcium, magnesium, potassium and phosphorus recharge the cells with energy, allowing them to perform their vital functions in the best possible way: the skin is thus able to strengthen its protective barrier, defend itself from external agents and regenerate quickly, producing new collagen and new elastin. They restore and maintain the right degree of hydration by recalling and incorporating the water molecules present in the deep layers of the dermis, preventing evaporation. In synergy with vitamins, they have an important antioxidant, anti-inflammatory, soothing and sebum-regulating function, guaranteeing protection to the skin and the right hydro-lipid balance.

## GLUCONOLACTONE

Thanks to its hygroscopic properties, it incorporates and retains the water molecules that would otherwise evaporate from the deep layers of the dermis, providing long-term hydration. It stimulates the production of collagen and elastin, restores the damaged skin barrier and at the same time plays an important antioxidant action.

### **DIRECTIONS FOR USE:**

Measure the water and powder in the proportions 2: 1 using the measuring cups included in the box. In a suitable container, first pour the powder and then the water. Mix to obtain a homogeneous mixture and apply with a brush on the skin starting from the neck upward. Drying times 9/13 minutes. Leave on for 15/20 minutes and remove the alginate with your hands starting from the base of the neck, from the bottom up. Before removing, it is advisable to lift the edges of the mask also with the help of a damp sponge.
