PEEL-OFF GREEN MASK

Soothing
Aloe, Camomilla,
Iricalmin^{PF}

All skins

Format 100 ml

Cod. 1030020112

Peel-off face mask, it soothes, calms and hydrates the skin. Formulated with soothing plant active ingredients of Aloe and Chamomile combined with a patented moisturizing biocomplex that restores the protective lipid layer of the skin. It balances sensitive and delicate skin, subject to redness and irritation or subjected to atmospheric stresses such as sun, wind and cold or irritation of any kind. Gives an immediate sensation of freshness and well-being. Ideal for sensitive and / or delicate.

With Chamomille,
Aloe & Vitamins

IRICALMIN^{PF}

Complex of both plant and biotechnological origin with a soothing, restorative and regenerating action on damaged skin. It acts actively giving immediate relief on sunburn and \ or irritation, including shaving and depilation. Relieves itching and stress of the skin exposed to external aggressions including environmental pollution and particularly aggressive soaps. It has an important moisturizing and regenerating action on the lipid layer, guaranteeing elasticity and protection to the skin.

ALOE VERA

Particularly rich in vitamin A B C E, minerals and other substances essential for the health of the dermis, it has an important soothing, refreshing, anti-reddening and regenerating action. It counteracts oxidative stress thus slowing down the physiological cellular aging process of the skin. Purifies impure and acne-prone skin by controlling excessive sebum production.

CHAMOMILE

The Chamomile extract, particularly rich in flavonoids, has an important antioxidant and reconstructive action on the dermis. It stimulates the activity of fibroblasts with the consequent production of collagen, elastin and hyaluronic acid, promoting the repair of the epidermis and dermis. It has important anti-redness, soothing and decongestant properties, resulting in the treatment of sensitive, couperosic, acne and / or particularly delicate skin.

HYALURONIC ACID

It is one of the main components of the connective tissue, it confers resistance and firmness to the skin. It penetrates deeply, thanks to its reduced molecular weight, recalls and retains a large number of water molecules up to 70 times its weight, ensuring hydration, turgidity and elasticity, essential for the maintenance of young and healthy skin.

PANTENOL

By virtue of its marked moisturizing, emollient and soothing action, it is particularly suitable for the care and treatment of dry, sensitive and / or irritated skin or in the presence of couperose.

WHEAT GERM EXTRACT

It has strong moisturizing, normalizing and protective properties of the skin barrier. Soothes and regenerates the skin reddened by UV radiation and stressed by external aggressions. Particularly suitable for the treatment of dry, dull and faded skin.

SACCHAROMYCES CEREVISIAE EXTRACT

It has important moisturizing and antioxidant properties. Studies have shown that constant use of the extract leads to an improvement in the micro-relief of the skin, with the relative reduction of small wrinkles and surface irregularities.

TOCOPHEROL

It performs an important antioxidant action capable of blocking the harmful effect that free radicals exert on cells. It protects the collagen structure and preserves skin elasticity, thus counteracting premature aging due to oxidative stress from the sun's rays, pollution and smoke. The skin remains so toned and elastic, avoiding the appearance of wrinkles, the emptying of tissues and the loss of definition of the oval of the face.

DIRECTIONS FOR USE: Spread a thin and uniform layer of mask on cleansed and dry face, leaving out eyes, eyebrows, nostrils and lips. Leave to dry for 20-30 minutes and gently remove from the face like a film. Remove any residue with a sponge soaked in water.
