RESTORING NIGHT FACE MASK Jelly Sleeping Mask

Format 50 ml

Cod. 1030020097

Regenerating night gel face mask, without rinsing, provides an immediate supply of oxygen and energy to the cells, indispensable for their self-healing during sleep.

The innovative Revitalin[®] patented active ingredient penetrates during our night rest when our skin is particularly receptive and recharges the skin with new energy. Upon waking, it gives energy and vitality to the skin, which will appear soft, luminous and rested all day long.

REVITALIN[®]: Essential bioactive able to provide an immediate supply of oxygen to the skin essential for its night self-regeneration. It gives vital energy to the skin, which will appear immediately healthier and brighter throughout the day. Particularly rich in amino acids and adenosine, it helps accelerate cellular renewal at night. It increases glycolysis, respiration and mitochondrial regeneration, aerobic respiration of cells providing immediate energy just when the skin needs it most. In fact, the skin during the night goes through four phases that require energy: cellular regeneration, increased microcirculation, skin renewal and self-repair of the skin's protective barrier. During the day due to UV light, the active continues to perform its function by reactivating and protecting the skin even during the day.

HYALURONIC ACID: It is one of the main components of human connective tissues. Thanks to its ability to recall and bind to itself a high number of water molecules, it guarantees deep hydration, resistance, structure and firmness of the skin. It relaxes small wrinkles and redefines the face contours, giving an immediate young appearance.

SQUALANO: Has a dual antiaging action. On the one hand it regenerates the hydro-lipid film that covers the epidermis, preventing the water contained in the deepest layers from evaporating, thus preventing skin dryness and the onset of wrinkles. On the other hand, thanks to its antioxidant properties, it protects the skin from UV rays, counteracting and preventing photo-aging.

DIRECTIONS FOR USE: Apply a generous layer of gel on face and neck with light massage without rubbing in thoroughly and leave for the duration of sleep. In the morning proceed with the daily skincare routine, making sure to use lukewarm water, cleansing milk, toner and cream from Skin System dermo- cosmetic line best suited to your skin type.
