CELLULITE'S BLEMISHES MASSAGE CREAM Lemon, Algae, Ruscus, Sage, Caffeine, Guaranà, Carnitine

Format 250 ml and 500 ml

Cod. 1010020038 / 1010020011

Massage cream indicated in the treatment and care of skin imperfection of cellulite. Particularly rich in highly concentrated herbal ingredients, it stimulates the circulation of the blood and increases the body metabolism, thus reducing the localized fat, the stagnation of liquids and at the same time giving the recovery of skin tone. Thanks to its balanced formulation and its high smoothness, it is the ideal product in specific massages for the treatment and care of the localized stagnation of liquids.

LEMON

The lemon has important draining properties. It stimulates the micro-circle and helps to awaken the fats' metabolism. The high concentration of vitamin C, makes it a valuable help to restore and strengthen the veins' vestibule.

RUSCUS

The Butcher's broom (Ruscus Aculeatus) has a strong phlebotonic activity, promotes venous tone and gives elasticity to vessel walls. It reduces the excessive capillary permeability which causes lymphatic stagnation, cause of the annoying cellulite's blemish. Useful in cases of capillary fragility. It also has significant diuretic properties capable to reduce water retention, cause of the uncomfortable limbs' swelling

SAGE

Rich in beneficial and active ingredients such as flavonoids, vitamin B1, C and other substances essential for skin nourishing, it has an important antioxidant and stimulating action. It counteracts free radicals by slowing down the degeneration of tissues and, thanks to the synergy between the chlorogenic acid and its other components, it has an important reducing, diuretic and toning action.

ALGA LAMINARIA

The laminaria alga is considered the sea alga par excellence with important stimulating and reducing properties. Thanks to the enormous intake of iodine, it stimulates thyroid activity accelerating fat metabolism, thus promoting the movement of interstitial fluids and gradually reducing cellulite blemishes. It restores tone to the tissues with visible results from the very first applications. Valid and effective aid in the prevention and treatment of imperfections related to localized fat.

CAFFEINE

Caffeine stimulates blood flow, eliminating interstitial fluids between cell and cell and awakening cellular activity and the consequent lipid metabolism. It is thus the ideal natural active ingredient, in cases of need to reduce localized body fat. Particularly moisturizing, antioxidant and regenerating it provides nourishment and protection to the skin, keeping it young over time.

GUARANA'

The extract of the fruit of the Paullina Cupana is particularly rich in antioxidant and stimulating substances. It has an important anti-aging action on epidermal cells, protecting them from the oxidation of free radicals. Particularly rich in caffeine in addition to other important stimulating components, it increases lipid metabolism and blood circulation with consequent increase in blood oxygenation. It prevents accumulation of lactic acid in the muscles, improving recovery times after an intense sporting activity.

CARNITINE

It carries out an important slimming and firming action, thanks to its vessels protective and anti-edematous properties in association to lipolytic ones.

SHEA BUTTER

Particularly rich in vitamins, it performs nourishing and antioxidant actions. At the same time it creates a protective film on the skin protecting it from external aggressions, from the cold and from dehydration, leaving it soft and elastic.

PURE SWEET ALMOND OIL

Sweet almond oil, rich in Vit. A B E and Minerals, is known for its multiple properties: it fights skin aging and dryness and prevents the formation of cellulite by reinvigorating the peripheral circulation and reducing the water retention.

DIRECTIONS FOR USE:

Take the required amount of product. Massage with circular movements the part affected by blemishing. Proceed with the most appropriate massage technique.
