Vitamin E / Tocopherol,
Jojoba Oil

Dry skins

Format 200 ml e 500 ml

Cod. 1010020144 / 1010020153

Sugar moisturizing scrub rich in natural nutrients. It cleans the skin deeply removing impurities and dead cells producing a detox / oxygenating effect. Leave the skin silky, soft and sweetly scented. Used as a prewax product, it improves the effect of epilation by preparing the hair for its correct extraction.

XPERTMOIST[®]: Molecular film rich in active ingredients with an immediate moisturizing and regenerating effect. It acts in the deepest layers of the skin through a gradual hydro-protein occlusive release system giving the skin hydration, nourishment and elasticity. It gives a feeling of well-being even to particularly dry parts of the body such as elbows, knees and heels.

JOJOBA OIL: Jojoba oil has moisturizing and protective properties for skin pH. Particularly akin to the composition of the skin, rich in vitamins, minerals, iodine, tocopherol and other natural antioxidants, it prevents dehydration, reducing the loss of water from cells. Strengthens the hydro-lipidic film, protects, revitalizes and elasticizes the skin, preventing normal aging and giving it smoothness, tone and brightness. Particularly suitable in case of dry, withered and senescent skin,

it restores tone and elasticity to the tissues with visible results from the very first applications.

VITAMIN E / TOCOPHEROL: It plays an important antioxidant action able to block the harmful effect that free radicals exert on the cells. It protects the structure of collagen and preserves skin elasticity, thus counteracting premature aging due to oxidative stress of the sun's rays, pollution and smoke. Tone and elasticity prevent the appearance of wrinkles, the emptying of tissues and the loss of definition of face contours.

SUGAR: Natural source of glycolic acid able to break the bonds between keratinocytes, facilitating their removal, thus promoting a faster cell renewal. It gives brightness to a dull complexion. It gives the skin a healthy and bright appearance and allows subsequent treatment products to penetrate more easily.

DIRECTIONS FOR USE: Apply the scrub on dry skin and exercise accurate circular movements. Rinse. As a prewax product: it is recommended to use it at least 24 hours before epilation. Mix well before use.
