● ACTIVE INGREDIENTS

NIACINAMIDE: A form of Vitamin B3. Evens the skin tone, removing the yellowish tones caused by oxidative metabolic processes. Highly antioxidant.

RESORCINOL: Depigmenting active ingredient that reduces dark spots and evens the skin tone. Applied continuously, it acts on the enzyme that produces tyrosinase and melanin, thus reducing pigmentation due to the sun and other factors.

DAMASK ROSE WATER (*Rosa Damascena Flower Water*): Known as the symbol of beauty and eternal youth, it has moisturising, nourishing, firming, astringent, decongestive and antioxidant properties.
