

**ESSENTIAL CARE
CONCEPT**
DEEP FACIAL CLEANSING
RANGE

Provides a professional expert response to the three essential steps of any salon protocol:

REMOVER: remove toxins attached to the skin surface.

RENEWAL: renew the stratum corneum, stimulating oxygenation and cell regeneration.

REPAIR: repair optimal conditions to rebalance the microbiota, reprogramming self-protection functions and reviving cell rejuvenation processes.

“The skin is revived with improved texture at all levels.”

50 ml / 1.69 fl.oz.

**ECC_RENEWAL THREE ACTION PEEL
TRIPLE-ACTION FACIAL EXFOLIANT**

Ref: 10463

DESCRIPTION

Gentle facial renewing scrub with a triple exfoliating action for a more complete microabrasion. This single formula combines physical, chemical and biological exfoliants, which slough and polish the skin surface, removing dead cells in a desquamation process. Speeds up natural cell regeneration, preventing the appearance of imperfections. Revitalises the skin, which appears soft, smooth and even, improving its density and texture.

ACTIONS

- Exfoliating
- Descaling
- Antikeratolytic

ACTIVE INGREDIENTS

MALTODEXTRIN: Polysaccharide of plant origin. Helps the skin preserve optimal levels of hydration, strengthening the balance of the hydrolipidic film.

PROTEASE: Enzyme which accelerates the descaling processes by breaking the peptide links between proteins.

SALICYLIC ACID: Deeply cleanses the most superficial layers of the skin, leaving them free of cell debris, pollution residues and traces of make-up which have become embedded.

CITRIC ACID: Improves pore size, removing accumulated dead cells which give this dilation effect. It also keeps the most superficial skin layers balanced. Illuminates and evens the complexion.

PERLITE: Mineral abrasive particle of volcanic origin. Its consistency removes dead cells accumulated on the stratum corneum, helping stimulate micro-circulation.

WHITE CLAY (Kaolin): It has the ability to cleanse the skin of impurities, being very respectful of the skin's outermost layers, even in the most sensitive skin.

SHEA BUTTER (Butyrospermum Parkii Butter): Provides the necessary nutrition to strengthen the hydrolipidic film when we are going to perform exfoliation.

COMPOSITION

AQUA, CAPRYLIC/CAPRIC TRIGLYCERIDE, CETYL ALCOHOL, GLYCERYL STEARATE, PEG-75 STEARATE, CETETH-20, STEARETH-20, PROPYLENE GLYCOL, GLYCERIN, MALTODEXTRIN, PROTEASE, BETAINE, KAOLIN, CYCLOPENTASILOXANE, ALCOHOL DENAT, PERLITE, BUTYROSPERMUM PARKII BUTTER, ZINC OXIDE, PHENOXYETHANOL, TOCOPHERYL ACETATE, PROPYL GALLATE, CITRIC ACID, TOCOPHEROL, XANTHAN GUM, SALICYLIC ACID, ETHYLHEXYLGLYCERIN, PARFUM, DISODIUM EDTA.

DIRECTIONS FOR USE

Apply the product to the palm of your hand and spread on the face, neck and décolletage, making rubbing movements. Leave on for 3-5 minutes and remove with plenty of water, until the exfoliant particles have been completely removed. Dry and tone.
