

MyCODE ADVANCED
CUSTOMISABLE
REJUVENATING FACIAL
TREATMENT

A pro-ageing cosmetics line that can be used to design a custom treatment code to suit the specific needs of each person and moment, allowing you to prevent, control, correct and reduce significantly the appearance of the main biomarkers that cause skin ageing and tissue deterioration.

Effective and powerful "targeted action" formulas.

"Plump, wrinkle-free skin."

20gr. / 0.70oz.

47 REDENSIFYING PLUMPING SHEET MASK
REJUVENATING PLUMPING SHEET MASK

Ref: 10647

DESCRIPTION

Rejuvenating pure cotton fibre face mask for incredibly plump, hydrated and healthy skin. Serum-In-Mask. Impregnated with a masterful combination of Bakuchiol (Plant Retinol), Hyaluronic Acid and Niacinamide. Plumps wrinkles and expression lines, boosts cell regeneration, promotes collagen and elastin synthesis, improves skin texture and density, minimises hyperpigmentation, deeply moisturises and has an antioxidant effect against oxidative stress.

ACTIONS

- Plumping.
- Rejuvenating.
- Antioxidant.

ACTIVE INGREDIENTS

NIACINAMIDE: A Vitamin B3 derivative that contains antioxidant properties, protecting the skin from premature ageing and stimulating collagen and elastin formation. Stimulates lipid production, strengthening the barrier function and moisturising the skin.

BAKUCHIOL: Plant-based ingredient derived from the seeds and leaves of the babchi plant. Provides similar results to retinol without the side effects and is known for its anti-ageing, antioxidant, depigmenting, antimicrobial and anti-inflammatory properties.

HYALURONIC ACID (Sodium Hyaluronate): Hygroscopic active ingredient that preserves skin elasticity and firmness. Its moisturising and water-retention properties provide density, deep hydration and a plumping effect while preventing epidermal dehydration.

COMPOSITION

AQUA, GLYCERIN, PROPYLENE GLYCOL, PROPANEDIOL, NIACINAMIDE, BAKUCHIOL, SODIUM HYALURONATE, PVM/MA COPOLYMER, POLYSORBATE 20, POLYSORBATE 60, HYDROXYETHYLCELLULOSE, GLYCERYL ACRYLATE/ACRYLIC ACID COPOLYMER, DISODIUM PHOSPHATE, PARFUM, SODIUM GLUCONATE, BENZYL ALCOHOL, CHLORPHENESIN, PHENOXYETHANOL.

DIRECTIONS FOR USE

Apply the mask and leave on for about 10-15 minutes. Electroporation may be performed using the [MS] MESOLAB device. Remove the mask and massage the remaining product until completely absorbed.
