They recover the contour of the silhouette and restore firmness, elasticity and natural tone to the skin. The essential treatments to restore slenderness to the body.

*"A refined
contour and
soft and
supple skin."*

ANTI-CELLULITE LIPO-REDUCING CREAM

Ref: 20104

DESCRIPTION

Lipo-reducing and anti-cellulite cream with a powerful lipogenesis-inhibiting action. Helps to reduce fatty deposits, refining the silhouette's appearance. Contains active ingredients which boost the micro-circulation and others with firming properties to synergistically combat the main body flaws.

ACTIONS

- Lipolytic.
- Decongestive.
- Stimulates the micro-circulation.
- Firming.

ACTIVE INGREDIENTS

CARNITINE (*Carnitine*): Essential lipid metabolism cofactor. Intervenes in the transfer of fat inside the cells to convert it into energy.

CAFFEINE (*Caffeine*): Stimulates the circulation and boosts lipolysis metabolism, speeding up the fat burning process and turning fatty acids into energy.

IVY EXTRACT (*Hedera Helix Extract*): Helps the contraction and subsequent dilation of blood vessels, thereby activating the micro-circulation. Has regenerating properties.

HORSETAIL EXTRACT (*Equisetum Arvense Extract*): Due to its potassium and flavonoid content, it significantly improves liquid retention and the removal of toxins, boosting the slimming effect.

COMPOSITION

AQUA, PARAFFINUM LIQUIDUM, GLYCERIN, CAPRYLIC/CAPRIC TRIGLYCERIDE, CETYL ALCOHOL, GLYCERYL STEARATE, PRUNUS AMYGDALUS DULCIS OIL, RUSCUS ACULEATUS ROOT EXTRACT, EQUISETUM ARVENSE EXTRACT, HEDERA HELIX EXTRACT, CAFFEINE, CARNITINE, CITRIC ACID, CETETH-20, STEARETH-20, TOCOPHERYL ACETATE, PROPYL GALLATE, TOCOPHEROL, TETRASODIUM GLUTAMATE DIACETATE, XANTHAN GUM, SODIUM HYDROXIDE, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, PARFUM, COUMARIN.

DIRECTIONS FOR USE

OPTION A - TO COMPLEMENT THE BODY TREATMENT:

Apply 10ml of product (shelled walnut-sized), spread over the localized area to be treated. Massage using remodelling and reducing motions until fully absorbed.

OPTION B - TO COMPLEMENT THE BODY EXFOLIANT:

Use 75ml of product (plum-sized) for the entire body. Apply the required amount according to the area being treated. Actively massage until it is completely absorbed.

450 ml / 15.2 fl.oz.
