021 CALMING
DECONGESTING FACIAL SERUM

Ref: 10621

DESCRIPTION

Soothing and decongestive facial rejuvenating serum that protects, repairs and calms irritated skin with signs of sensitivity and reactions to free radical damage.

ACTIONS

- Decongestive.
- Regenerating.
- Moisturising.
- Antioxidant.
- Firming.

ACTIVE INGREDIENTS

EPITENSIVE™ (PLANT-EGF): Plant-based growth factor that stimulates the synthesis of collagen, elastin and other proteins, as well as extracellular regeneration. Also accelerates re-epithelialisation and skin repair processes.

HYALURONIC ACID (Sodium Hyaluronate): Hygroscopic active ingredient that preserves skin elasticity and firmness. Its moisturising and water-retention properties provide density, deep hydration and a plumping effect while preventing epidermal dehydration.

THIOCTIC ACID: Natural antioxidant that helps to combat free radicals. Generates an increase in skin microcirculation, boosting the supply of essential substances and improving skin decongestion.

FERULIC ACID: Antioxidant that neutralises free radicals and prevents cell damage, counteracting photoageing. Helps conserve the cellular matrix of tissues and protects the dermis.

SEAWATER (Maris Aqua): The high concentration of mineral salts in Seawater is rich in minerals and trace elements, which provide resilience to the most damaged tissues.

PUMPKIN SEED EXTRACT (Cucurbita Pepo Seed Extract): Pumpkin Seed Extract is rich in enzymes that stimulate the regeneration of the most superficial skin structure.
