ACTIVE INGREDIENT

DAMASK ROSE WATER (*Rosa Damascena Flower Water*): Has moisturising, nourishing, firming, astringent, decongestive and antioxidant properties.

HYDROLYSED COLLAGEN (*Soluble Collagen*): Bio-Marine Collagen 6 is a high-purity soluble collagen of marine origin. Increases the formation of fibrous proteins that will form the support fibres of the outermost skin layers, providing resilience and suppleness.

ORGANIC SILICON (*Methylsilanol Mannuronate*): Forms part of the skin's natural connective tissue structure. Stabilises and maintains the architecture of skin tissues, stimulating fibroblasts and promoting collagen, elastin and proteoglycan biosynthesis. Improves skin elasticity and firmness, thus reducing fine lines and enhancing skin radiance.

HYDRACTIN®: Rich in papain (Papaya enzyme), it has a renewing action and promotes skin regeneration.

GLAUCINE: Glaucine is a multifunctional molecule that stimulates lipolysis and inhibits the appearance of new adipocytes by regulating calcium flow. By targeting pre-adipocyte and adipocyte metabolism, it prevents the appearance and significantly reduces the thickness and volume of adipose tissue in the double chin.

HORSETAIL EXTRACT (*Equisetum Arvense Extract*): Due to its diuretic properties and its potassium and flavonoid content, it significantly helps to eliminate liquids and accumulated toxins, boosting the slimming effect.
