● **48 RESTRUCTURING FIRING HYDROGEL MASK**
RESTRUCTURING FIRING HYDROGEL MASK

Ref: 10648

● DESCRIPTION

Rejuvenating hydrogel face mask for firm, supple and resilient skin. Coenzyme Q10 and Ceramide NP help to organise the support and defence matrix of the dermis, providing strength and structure to tissues and protecting against oxidative damage. Elastin keeps the skin supple, reducing the formation of wrinkles and expression lines. The mask sticks firmly to the skin while providing a pleasant soothing feeling.

● ACTIONS

- Firming.
- Tightening.
- Moisturising.
- Antioxidant.

● ACTIVE INGREDIENTS

HYDROLYSED ELASTIN (Hydrolyzed Elastin): Improves the skin's biodynamic properties, enhancing its elasticity and delivering the necessary amino acids and peptides to the skin to increase elastin synthesis, thus reducing premature skin ageing.

HYALURONIC ACID (Sodium Hyaluronate): Hygroscopic active ingredient that preserves skin elasticity and firmness. Its moisturising and water-retention properties provide density, deep hydration and a plumping effect while preventing epidermal dehydration.

CENTELLA ASIATICA EXTRACT: Antioxidant that protects the cells from skin ageing by stimulating collagen synthesis.

RETINYL PALMITATE: A retinol derivative that improves the appearance of the skin by proliferating the epidermis, reducing fine lines and wrinkles. Also inhibits collagenase, resulting in more redensified skin.

COENZYME Q10 (Ubiquinone): Ubiquinone helps the mitochondria produce energy. An antioxidant that helps prevent free radical damage to cells.
