SUN PROTECTION EMULSION
WITH LIPOREDUCING ACTION**

Ref: 25009

DESCRIPTION

Body sunscreen that stimulates a liporeducing action while protecting the skin from UV rays during sun exposure or outdoor activities. Non-oily touch. Fast Absorption.

ACTIONS

- Liporeducing action
- Sunscreen
- Prevents surface dehydration

ACTIVE INGREDIENTS

MAKANDI EXTRACT (*Coleus Forskohlii Root Extract*): Plant extract that promotes adipocyte lipolysis, mobilising stored fat. Contains high concentrations of Forskolin, a powerful anti-inflammatory and lipolytic active ingredient.

L-CARNITINE (*Carnitine*): Has a powerful lipolytic action due to its metabolic fat stimulation, helping to turn fat into energy.

CAFFEINE (*Caffeine*): Stimulates the circulation and boosts lipolysis metabolism, speeding up the fat burning process and turning fatty acids into energy.

VITAMIN E (*Tocopheryl Acetate*): Its antioxidant action enhances the protection of the skin against sun exposure. Reduces cell degradation and prevents photoageing.
