## My[B]CODE PROTOCOL TREATMENT

**1** Use Rhiolite peeling to remove the dead skin cells and make the skin more receptive to the serum action. Use it before each body treatment or suggest the client does it at home the previous day.

**2** Remove the exfoliating particles making circular motions till the product is completely absorbed, because makes easy eliminate them without shower.

**3A** Prepare the customized serum and penetrate it with mesolab system, focusing on the areas to be treated.

**3B** MANUAL APPLICATION:  
Prepare the customized serum, add 5 ml of blend oil. Shake the mixture vigorously till it becomes an emulsion. Give the specific massage on the areas to be treated.

**4A** Apply Mineral mask or Siluet Mask wrapping it with a plastic sheet. Let it set for 15 minutes.

**4B** EXTRA FIRING TREATMENT TO CRITICAL AREAS SPECIFICLY:  
The mixture has to be done with the same pumps number of each one lift gel mask (A+B / 1+1) Take a bowl and spatule to make it easy. Mix it vigorously till becomes a homogeneous mixture. Let it set for 20 minutes and remove it in one piece.
